Maurice,

Our CBI statute will not take effect until August 1, 2021, so I suggest you withhold our permissions until then.

Regards,

*Steve Lee*

Good Afternoon Nancy: I am not sure if the drafts you sent in June have had any updates but if so I would like to request a new set. We are looking forward to populating CBI files soon.

I attended the Primacy hearing on July 6 in Baton Rouge.

Ken: Steve has identified the LDNR staff members to be granted access to the folders and I will be providing those names and email addresses to you folks in the near future.

Once the CBI file is populated and the application is submitted to EPA region 6, Hackberry Carbon Sequestration would certainly make ourselves available to address any items of interest on your folks part. Nancy: I know your schedule will soon be changing and if interested we can certainly address any geological points you might have. I have looked at and worked at a number of reservoir and cavern storage facilities over my career and I think this project has some outstanding characteristics for the purpose of carbon sequestration.

Regards,

Maurice Gilbert  
Chief Engineer

Hi Maurice,

I was updating my tracking sheets and noticed that you all did not request to be added to the updates on our R6 Class 6 related documents. You might want to seriously consider joining. To show what you have missed, I attached the one I sent out (bcc) to the other folks today.

Cheers,  
Nancy
